RE: LCV Victory Fund RFAI (Amended October 2012 monthly report)
ID# C00486845

Dear Mr. Buckley:

Per our conversation regarding the RFAI dated January 30, 2013, the Amended October 2012 monthly report contains complete information. This letter is to provide additional cross reference information. The transactions identified in the RFAI are Independent Expenditures paid for as in kind contributions by League of Conservation Voters, Inc. (LCV Inc.). For the October period these transactions were reported as in kind receipts on Schedule A, offsetting disbursements on Schedule B, and memo items on Schedule E for Independent Expenditure reporting purposes. As also discussed, we have since begun reporting these transactions as receipts on Schedule A and live entries on Schedule E to simplify and clarify reporting.

To address item 1 more specifically, the debt payments to Chapman Cubine Adams + Hussey and Communication Graphics are reported on Schedule B at page 67 A and B. The Independent Expenditure entries on Schedule E on pages 73, 74, 77, and 78 are memo items providing additional explanation of the Schedule B entries on page 67, and were reported as memo items to avoid inflating actual disbursements.

To address item 2 more specifically, payments for the Independent Expenditure memo disbursements to Production Management Group and USPS are reported on Schedule B, page 65 B and C. There are no debts for these entries because the payments were made in the reporting period and disclosed on Schedule B. The \$17.02 debt to Production Management Group corresponds to a single Schedule E transaction on page 99A of the report (Independent Expenditure is reported as estimate, but debt is listed as actual amount ultimately paid). Payment of this debt is reported on the amended post-General report at pages 53C, 125B, and 145B.
Thank you in advance,

Patrick Collins, Treasurer
LCV Victory Fund
